Customized CNC Precision Machinery
Machining Expertise and Experience
Dedicated Customer Service Team

Phone: 979-567-0808

We Produce Customized CNC Precision Parts

In 1976, Gary Snoe set up a tiny shop, with one machine in Houston, Texas. Growing from one machine, Snoe Inc., Machining and Welding now occupies three buildings with a total of 63,000 square feet of industrial machining floor space in Caldwell, Texas.

Starting with one machine, we are now operating with 52 machines (CNC VMC/ HBM/VTL, lathes, and stamping machines), as well as a hydrostatic testing booth, climate-controlled paint booth, in-house pallet construction and trucks for shipping of finished products.

Our proven and experienced team offers tailored, precise CNC machining solutions to meet the unique requirements of each client, providing flexibility in production runs from prototyping to high-volume manufacturing. Our adaptive approach ensures that we can respond quickly to your changing needs and project timelines.

Some of the industries we serve are aerospace, automotive, oil and gas, defense and many more.

Why Choose Snoe Inc. Machining?

✓ Expertise and Experience

Our team of skilled machinists brings years of experience and a deep understanding of machining complexities. We thrive on challenging projects and have a proven track record of delivering solutions others deem impossible.

✓ Customization and Flexibility

We offer tailored machining solutions to meet your unique requirements, providing flexibility in production runs from prototyping to high-volume manufacturing. Our adaptive approach ensures that we can respond quickly to your changing needs and project timelines.

✓ Customer-Centric Approach

At Snoe Inc., your satisfaction is our priority. We collaborate closely with you to understand your goals and deliver products that exceed your expectations. Our dedicated customer service team is always ready to assist you, ensuring smooth communication and seamless project execution.
