Machined Products for Commercial and Industrial Use

For more than 45 years, Snoe, Inc. has been a trusted, dependable partner, providing custom machined parts and projects for commercial and industrial clients. Our products are flawlessly crafted to excel in a wide range of environments, from extreme cold to hot, desert-like conditions. Our fabricated commercial and industrial parts and projects are in use statewide, throughout the nation and worldwide. Using a variety of metals tailored to your specifications, our operations are adaptable to meet both small and large-scale commercial requirements.

At Snoe, Inc., every production stage undergoes rigorous inspection to ensure that each product meets the highest quality standards, complies with project specifications, passes all quality audits and functions effectively.

Commercial and Industrial Machined Products

We offer a variety of products suitable for oil and gas applications and other commercial uses, including:

- Hot tapping Valves
- PUP Joints
- Blowout Stopper
- Frac Boxes
- Plugging Head Equipment
- Actuators
- Pipeline Valve
- Subsea Wellhead Drilling and Completion Equipment
- Surface and Fracking Equipment
- Fittings and Housings
- Dual Composite Block Valves

Quality Services Make Quality Products

Our machining services ensure the final product will undergo rigorous manufacturing steps resulting in high-quality products.

- Prototyping
- Engineering Feasibility Reviews
- Full Product Production
- Product Distribution Management
- Fabrication of Medium to Large-size Weldments

We hydro **test 100%** of our valves.
